NO 14 – SEPTEMBER 2018

2018 Provincial General Election, October 1st - The CDC National Table has prepared its advocacy platform. The objective, according to this document, is to draw a portrait of the specific needs and demands of the CDCs, in terms of their mission and the essential role they play in the socio-economic development of their community. These demands include, among others, the recognition of the community-based organization through the enhancement (and indexing) of funding to the overall mission of organizations. Do not hesitate to question the candidates on this issue when the opportunity arises.
